Chuck,
That's fine. You will have 3 slots but I wouldn't send the 3rd person in June – perhaps a later date? Jim will be here tomorrow.

Julie, I am recommending sending Peter and Michael from the Boston Drug Lab to the upcoming DEA class being held from June 6-10, 2011 in Washington. As the complexity of analyses continues to increase in the Forensic Science field it is imperative that the Lab's senior staff be made aware of and be exposed to the problems similar laboratories are experiencing. The people who will be making analytical decisions in the future are our senior staff, and they need this training to help train our analysts in the future. Junior staff can attend future trainings. Maybe we can discuss when Jim comes down from Amherst. Thanks, CBS

Subject: DEA School

Hi,
The Coverdell ISA is finally in place so we can send some chemists to DEA School. I have budgeted for 4 to attend. Given the need for frequent testimony, it makes sense to send the more junior staff who have not already attended, to help bolster their credentials.

Please take a look at the available training sessions and the three of us can discuss late next week (Thursday?). Let's plan to send 1 analyst from the Amherst lab and 3 from Boston. If we don't have 3 from Boston who can travel on those dates, we can consider sending two from Amherst (but not at the same time).

Julie

Sorry – I was hoping to attach the link to the course on the DEA website but I was unable to find it.
